FOREWARD

This HVAC&R PRODUCT DIRECTORY of manufacturers and their representatives has been prepared by your ASHRAE Chapter with RepGuide as a service to all members of the industry. The directory is intended to foster better communication between manufacturers, representatives, distributors, wholesalers, engineers, contractors, and other interested parties within the HVAC&R industry. The directory listings are not limited to ASHRAE members and the listings are not to be considered an advertisement or endorsement by ASHRAE.

Thank you to all who made this directory possible through your support.

If you or someone else would like to join the directory next year, please submit your information to our directory partner at:

**help@repguide.co
<https://repguide.co>**

Powered by X: Flexible by design

® X-enabled smart pumps engineered with the modern mechanical room and modern-day building challenges in mind. Experience the difference that this next generation pump package can make built with ultra-premium efficiency and simplified components.

Our Partners

Bringing You the Best in Applied Products

accutrolinc.com

Specializes in the manufacturing and distribution of innovative airflow control and measurement technologies for critical environments within university, healthcare and research facilities. Their customizable airflow solutions include:

- AccuValve® low pressure drop airflow control valve (ISO 9001:2015 certified, AHR Innovation Award winner)
- AVC Fume Hood Control System (AHR Innovation Award winner)
- Iso-Tek® Room Pressure Monitor
- Room airflow and temperature controls
- Vortek® airflow measurement for duct, fan inlet & fan array / outdoor airflow measurement

acutherm.com

Modular VAV systems from full BACnet® enabled VAV diffusers to thermally powered VAV diffusers for use in HVAC systems

antrum.com

AntrumX™ is an award-winning, centralized sensing technology, delivering solutions in the education, laboratory, cannabis cultivation, commercial office, VRF, MRI and parking garage markets.

carelusa.com

Carel is a leading designer and manufacturer of humidification systems in the USA.

easinc.net

Environmental Air Systems offers off-site construction for central energy plants, mechanical/electrical penthouses and data centers up to 1 MW that are scalable and expandable.

Representation, Sales and Service for the following manufacturers:

Mission critical fuel systems, Tank monitoring, Filtration, Boiler instruments and controls, Flame safe guard and scanners

Custom PLCs, multi-loop controllers an or field configurable off the shelf systems

Low and ultra low NOx, High efficiency burners, Gas, oil, waste streams, Renewable fuel oil combustion packages

Johnston firetube, Waste heat boilers, Hot water, Low and high press steam to 2500 HP, Water backed designs

Horizontal and Vertical Hot Water Low Pressure Steam Boiler, Gas/Oil Fired, Packaged Systems

Above-ground storage tanks (AST), cylindrical and rectangular, offering field fabrication and testing

Industrial Watertube Boilers, Waste Heat recovery systems, Firetube boilers, Scotch marine, Waste heat boilers, HRT boilers, Vertical Firetube boilers

Factory designed breaching, Chimney liners and stacks, Single, double-wall, and special gas vent

Prefabricated, preinsulated, secondary containment, and Conduit piping systems for industrial and commercial applications

Underground storage tanks, ASTs standard & custom

High-efficiency and ultra high-efficiency condensing cast iron boilerS 200-4,000 MBH

Gas detection systems, Carbon monoxide, Combustible gases for schools, SCA parking garages, and boiler rooms

Double wall stainless steel pipe for above ground, below ground, marina and commercial fuel systems

Dual-fuel cast iron sectional power boiler for hot water and steam

Ultra-high efficiency condensing firetube, Watertube boiels and HWH 850 MBH-10,000 MBH

Analytical & Combustion Systems is proud to present Fuel Oil Storage Tanks (20-50,000 gallons) for above ground and below ground scenarios, highlighted by NYC Standards and all UL Listed requirements.

Description

Portafab

Portab is a company that specializes in modular building systems for interior applications, including modular offices, cleanrooms, and other specialized spaces.

Rensa

Rensa Filtration is a North American manufacturer and distributor of air filtration products.

Sanuvox

Sanuvox Technologies Inc. is a world leader in ultraviolet air purification, offering the most advanced and cost effective air purification and coil cleaning systems.

Simplex Modular Cleanroom Systems

Simplex Cleanrooms, now part of Subzero Engineering, is a manufacturer of cleanroom products and solutions for various industries, including pharmaceuticals, biotechnology, and microelectronics.

Smith Filtration

Smith Filter manufactures the highest quality Metal Air and Grease Filters available in the market.

Starrco

Starrco designs and manufactures modular cleanrooms and prefabricated environments for controlled, contamination-sensitive applications across industries like pharmaceuticals, electronics, and aerospace.

UVR

UV Resources is a manufacturer of ultraviolet-C (UVC) disinfection and HVAC surface treatment solutions designed to improve indoor air quality and energy efficiency.

Viskon-Aire

Viskon-Aire designs manufactures and markets air filters and related products, primarily to the commercial heating, ventilation and air conditioning ("HVAC") and general industrial markets.

Navitas System Integration (NSI) is a leading independent Building Automation Systems (BAS) integrator, specializing in the design, installation, and ongoing service of complex building control systems for commercial, healthcare, institutional, and mission-critical facilities. As an authorized dealer for **Siemens Building Automation & Critical Environments**, NSI delivers tailored, scalable solutions that optimize energy efficiency, enhance occupant comfort, and support long term operational performance. With a focus on reliability, innovation, and customer service, we empower building owners and facility managers to achieve smarter, more sustainable solutions.

SIEMENS

Solution Partner
 Building Automation | Critical Environments

TRIDIUM **Honeywell**

Design Assist Partnership

At Navitas System Integration, we take a collaborative, design-assist approach—partnering early with project teams to ensure the building automation system is seamlessly integrated into the overall design. Our team works closely with engineers, contractors, and owners to optimize system performance, identify value-engineering opportunities, and streamline the path from concept to commissioning. This proactive engagement reduces risk, improves constructability, and delivers smarter, more efficient buildings from day one.

CORE SERVICES

System Design & Engineering – Tailored BAS designs that align with project goals and building performance requirements.

Service & Maintenance – Preventative maintenance, troubleshooting, and 24/7 emergency support.

Project Management & Installation – Complete turnkey implementation including hardware, wiring, and device setup.

Upgrades & Retrofits – Modernization of outdated systems with the latest BAS technologies.

Programming & Integration – Seamless control logic and multi-system integration into unified platform.

Remote Monitoring & Analytics – Real-time system insights via cloud or on-premise platforms.

Commissioning & Startup – Functional testing and fine-tuning to ensure optimal system performance.

Training & Documentation – Comprehensive onsite or virtual training for faculty and staff.

Navitas System Integration | 70 Industrial Park Road, Plymouth, MA 02360 | Tel: (508)-747-7122 | Navitas-llc.com

Description

MegaPress

Ideal for facility utility needs, the Viega MegaPress system is easy to use, flameless, and reliable. Most often used for fire sprinklers, natural gas, hydronics, and compressed air, MegaPress leaves no joining material buildup, exposed threads, or tarnish, creating a clean, professional appearance

MegaPress Stainless

Designed for Iron Pipe Size (IPS) stainless steel, Viega MegaPress stainless steel (304/316) press fittings support more applications than ever before. From potable water to acid and cleaning agents, Viega MegaPress stainless steel stands up to the toughest jobs while keeping its appearance clean.

ProPress

Viega ProPress® is the proven solution for nearly any industrial, commercial or residential project. With choices in sealing elements, system-matched tools, rings and jaws, press connections are made in seconds, making Viega ProPress suitable for many standard applications.

ProPress Stainless

Designed for Copper Tube Size (CTS), Viega ProPress 316 stainless steel is engineered for harsh industrial environments where the piping systems may come into contact with corrosive cleaning liquids. Viega ProPress 316 stainless steel is a great option for water, air, acidic, and cleaning solution applications while being light and easy to work with.

ProRadiant

Viega provides a versatile lineup of hydronic radiant and snow melt systems for new construction and retrofit in commercial and residential buildings. Besides products like PEX tubing, manifolds, controls Viega's offers design support and training on design and installation of radiant heating / cooling and snow melt system.

PureFlow PEX

PureFlow is the only system in the industry that offers press-to-press transition fittings – allowing you to easily transition from PureFlow PEX to ProPress in traditional branch and tee installations. Looking to reduce the number of fittings behind the wall? PureFlow lets you install remote manifolds giving each fixture in a building its own PEX tubing line
